1990 EDITORIAL INDEX

BUILDING ENVELOPE

Flexibility, Quality Drive '90s Technology — Jan 34
Roof Re-Cover (case study) — Jan 82
Roofing: Replacement/Re-Cover Options — Feb 88
Replacement Windows Product Review — March 74
Facade Care: Prevention Is Best Medicine — April 20
Roofing: Preventive Maintenance — April 24
Building Coating, Sealant Product Review — April 52
Weighing Replacement Window Options — May 26
Giving Built-Up Roofing a Closer Look — May 36
EIFS Selection and Installation — May 44
Single-Ply Roofing Manufacturers Index — May 62
Wall System (case study) — May 86
Insulating Glass (case study) — May 88
Single-Ply Roofing (case study) — June 124
Rooftop Facelift (case study) — July 66
Roofing: The Next Decade — Sept ..... following 114
Translucent Roofing (case study) — Oct 82
Weighing the Need for New Windows — Nov 66
Roofing System (case study) — Dec 52
Window Film Blocks UV Rays (case study) — Dec 53
Insulation (case study) — Dec 53

BUILDING REMODELING/RETROFIT

Flexibility, Quality Drive '90s Technology — Jan 34
The Building Industry Forsakes Go-Go Decade — Jan 48
Managing Asbestos Abatement — Jan 74
Lighting Reflectors (case study) — Jan 80
Lighting Retrofit (case study) — Jan 82
Proactive Rehabilitation Style — Feb 35
New Systems Bring New Life to Historic Hall — Feb 42
Prime Location Justifies Key Systems Retrofits — Feb 52
Retrofit's First Step: Facility Assessment — Feb 58
Renovation Tackles Problems (market report) — Feb 76
Roofing: Replacement/Re-Cover Options — Feb 88
Reducing Cost, Not Light (case study) — Feb 102
Matching EMS Capability to Needs (case study) — March 24
Untapped Energy Opportunities — March 58
Window Replacement Product Review — March 74
Chiller Conversion (case study) — March 80
Lighting Retrofit (case study) — March 82
Tenant-Friendly Energy Management — April 62
Surface Raceways (case study) — April 76
Weighing Replacement Window Options — May 26
Giving Built-Up Roofing a Closer Look — May 36
Renovation Booms with the Market (market report) — May 74
Designing a First Class Office Environment — July 30
Glazing: Performance and Design — July 38
Steam Chiller Retrofit (case study) — July 62
EIFS Retrofit (case study) — July 64
Owners Turn to Renovation (market report) — Aug 74
Renovation Case Study: Tower City Center — Sept 36
Renovation Case Study: Norwalk City Hall — Sept 44
Renovation Case Study: A&S Plaza — Sept 54
Renovation Case Study: Penn High School — Sept 64
Renovation Case Study: Emory University Hospital — Sept 74
Renovation Case Study: Centre Square — Sept 82
Renovation Case Study: American Airlines — Sept 93
Renovation Case Study: Dixon Mills — Sept 100
Mall Renovation (case study) — Sept 128
Problems Unite Diverse Market (market report) — Nov 54
Weighing the Need for New Windows — Nov 66
Power Distribution Technology — Nov 70
Steering Clear of Legal Problems — Dec 28
Pre-Purchase Facility Evaluations — Dec 32
Upgrading the HVAC System — Dec 40
Work-Area Renovation (case study) — Dec 52
Window Film Blocks UV Rays (case study) — Dec 53

ENERGY MANAGEMENT

Flexibility, Quality Drive '90s Technology — Jan 34
Lighting Retrofit (case study) — Jan 82
Proactive Rehabilitation Style — Feb 35
Shared Energy Savings (case study) — Feb 98
Matching EMS Capability to Needs (case study) — March 24
Conducting an Energy Audit — March 36
Increasing Energy Efficiency — March 42
Weighing the Cogeneration Option — March 50
Untapped Energy Opportunities — March 58
Energy Management Systems — March 64
Chiller Conversion (case study) — March 80
Tenant-Friendly Energy Management — April 62
Building Management Network (case study) — April 76
Building Management System (case study) — May 86
Automatic Boiler (case study) — June 120
VAV System (case study) — June 120
Energy Management (case study) — June 122
Electric Submeter (case study) — June 124
Occupancy Sensors (case study) — July 64
Chiller Control (case study) — Sept 128
Louvers Control Heat Gain (case study) — Sept 130
VAV Diffuser (case study) — Sept 130
Energy Management (case study) — Oct 80
Heating System (case study) — Oct 82
Power Distribution Technology — Nov 70
Energy Program (case study) — Nov 76

ENVIRONMENTAL ISSUES

The Building Industry Forsakes Go-Go Decade — Jan 48
Managing Asbestos Abatement — Jan 74
Asbestos Legal Update — Jan 75
Chiller Conversion (case study) — March 80
Comprehensive Asbestos O&M — April 32
Bracing for Federal PCB Deadline — April 68
HVAC Challenge: Environmental Concerns — June 26

1990 EDITORIAL INDEX

BUILDING ENVELOPE

Flexibility, Quality Drive '90s Technology — Jan 34
Roof Re-Cover (case study) — Jan 82
Roofing: Replacement/Re-Cover Options — Feb 88

Steering Clear of Legal Problems — Dec 28
Pre-Purchase Facility Evaluations — Dec 32
Upgrading the HVAC System — Dec 40
Work-Area Renovation (case study) — Dec 52
Window Film Blocks UV Rays (case study) — Dec 53

ENERGY MANAGEMENT

Flexibility, Quality Drive '90s Technology — Jan 34
Lighting Retrofit (case study) — Jan 82
Proactive Rehabilitation Style — Feb 35
Shared Energy Savings (case study) — Feb 98
Matching EMS Capability to Needs (case study) — March 24
Conducting an Energy Audit — March 36
Increasing Energy Efficiency — March 42
Weighing the Cogeneration Option — March 50
Untapped Energy Opportunities — March 58
Energy Management Systems — March 64
Chiller Conversion (case study) — March 80
Tenant-Friendly Energy Management — April 62
Building Management Network (case study) — April 76
Building Management System (case study) — May 86
Automatic Boiler (case study) — June 120
VAV System (case study) — June 120
Energy Management (case study) — June 122
Electric Submeter (case study) — June 124
Occupancy Sensors (case study) — July 64
Chiller Control (case study) — Sept 128
Louvers Control Heat Gain (case study) — Sept 130
VAV Diffuser (case study) — Sept 130
Energy Management (case study) — Oct 80
Heating System (case study) — Oct 82
Power Distribution Technology — Nov 70
Energy Program (case study) — Nov 76

ENVIRONMENTAL ISSUES

The Building Industry Forsakes Go-Go Decade — Jan 48
Managing Asbestos Abatement — Jan 74
Asbestos Legal Update — Jan 75
Chiller Conversion (case study) — March 80
Comprehensive Asbestos O&M — April 32
Bracing for Federal PCB Deadline — April 68
HVAC Challenge: Environmental Concerns — June 26

Asbestos Industry Overview — June 86
Implementing an Asbestos O&M Program — June 94
Review of Federal Regulating Activity — June 100
Evaluating Environmental Consultants — June 108
Recycling: Cost-Effective Waste Management — Oct 28
What Owners Can Do About CFCs — Oct 36
Protection from Indoor Air Problems — Oct 42
Understanding Asbestos Regulation — Oct 50
EPA Begins Crackdown on PCB Transformers — Oct 56
Environmental Impact of Lighting — Oct 62
Countering Effects of Sick Building Syndrome — Nov 38

FACILITIES MANAGEMENT

Evolution of the Facility Manager — Jan 25
The Building Industry Forsakes Go-Go Decade — Jan 48
Protocols for the "Smart" Building — Jan 52
Exploring CAFM Options — Jan 64
Forming a Profitable Alliance (market report) — Feb 82
Conducting An Energy Audit — March 36
Increasing Energy Efficiency — March 42
Energy Management Systems — March 64
Defining the Maintenance Role — April 38
Tenant-Friendly Energy Management — April 62
Bracing for Federal PCB Deadlines — April 68
Competition and Cost Control (market report) — May 72
Facility Healthcare Challenges (market report) — May 80
Planning for Uncertainty (market report) — May 82
Safe and Effective Water Treatment — June 72
Targeting Tenant Amenities (case study) — July 24
Tenant Retention Programs — July 34
Moving Away from Costly Litigation — July 58
'80s Binge Brings '90s Hangover (market report) — Aug 72
Management Responsibilities Are Converging — Aug 80
Access Control (case study) — Aug 82
Facilities' Blues (market report) — Nov 52
Problems Unite a Diverse Market (market report) — Nov 54
Year-End Legal/Financial Review — Dec 22
Steering Clear of Legal Problems — Dec 28
Pre-Purchase Facilities Evaluations — Dec 32

HVAC TECHNOLOGY

Flexibility, Quality Will Drive '90s Technology — Jan 34
Weighing the Cogeneration Option — March 50
Chiller Conversion (case study) — March 80
Tempering Extremes (case study) — March 82
Building Management Network (case study) — April 76
Building Management System (case study) — May 86
HVAC Challenge: Environmental Concerns — June 26
Automated Temperature Control — June 38
Temperature Control Product Review — June 38
A Route to Building Systems Compatibility — June 56
HVAC Service Contracts Offer Peace of Mind — June 66
HVAC, Life-Safety and Security Systems — July 52
Steam Chiller Retrofit (case study) — July 62
Upgrading the HVAC System — Dec 40

INTERIOR PLANNING CONSIDERATIONS

High-Tech Lamp Product Review — Jan 34
Access Flooring (case study) — Jan 80
Modular Carpet — Feb 96
Modular Carpet Systems Product Review — Feb 96
Carpet Tile (case study) — April 78
Carpet Care (case study) — April 78
Lighting: Aesthetics, Ergonomics and Cost — May 56
Automated Temperature Control Product Review — June 38
Automated Elevator Control Product Review — July 44
Improving Acoustics in the Open Plan Office — July 48
Relocatable Wall System Product Review — Oct 70
Designing for Flexibility — Nov 26
Choosing Furnishings — Nov 30
Countering the Effects of Sick Building Syndrome — Nov 38

LIFE SAFETY/SECURITY

Flexibility, Quality Drive '90s Technology — Jan 34
In Search of a Safe and Secure Workplace — Jan 70
HVAC, Life-Safety and Security Systems — July 52
Understanding Electronic Security Technology — Aug 26
Developments in Fire Safety Design — Aug 34
Computers and Fire — Aug 46
Access Control Product Review — Aug 55
Access Control (case study) — Aug 82
Electronic Security (case study) — Aug 84
Intercom System (case study) — Aug 84

LIGHTING

Flexibility, Quality Drive '90s Technology — Jan 34
High-Tech Lamps Product Review — Jan 62
Lighting Reflectors (case study) — Jan 80
Energy Saving Retrofit (case study) — Jan 82
Reducing Cost, Not Light (case study) — Feb 100
Compact Fluorescents (case study) — March 82
Lighting: Aesthetics, Ergonomics and Cost — May 56
Occupancy Sensors (case study) — July 64
HPS Lighting System (case study) — Aug 82
Environmental Impact of Lighting — Oct 62

MAINTENANCE, EXTERIOR/INTERIOR

Flexibility, Quality Drive '90s Technology — Jan 34
Roof Re-Cover (case study) — Jan 82
Shaping Facilities for Tomorrow's Students — Feb 72
Paying Price for Neglect (market report) — Feb 74
Roofing: Replacement/Re-Cover Options — Feb 88
Tile Restoration (case study) — March 80
Facade Care: Prevention Is Best Medicine — April 20
Roofing: Preventive Maintenance — April 24
Comprehensive Asbestos O&M — April 32
Maintenance Role in Planning and Design — April 38
Computerized Maintenance Management — April 48
Building Coating, Sealant Product Review — April 52
Giving Built-Up Roofing a Closer Look — May 36
EIFS Selection and Installation — May 44
Indoor/Outdoor Matting (case study) — May 80
HVAC Service Contracts Offer Peace of Mind — June 66
Air Filtration (case study) — June 122
Preventive Maintenance (case study) — July 66
Problems Unite Diverse Market (market report) — Nov 54
Weighing the Need for New Windows — Nov 66
